Preface

The Aringa language is spoken as mother-tongue by more than 250,000 people in Uganda. The Aringa primarily live in Yumbe district in northern part of Uganda bordering Southern Sudan. They are traditionally hunters, cultivators and they keep small scale livestock mainly for home use.

The Aringa language has been actively used but not written until 1998 when the orthography was developed by Here is Life Translation and Literacy department with technical assistance from SIL International.

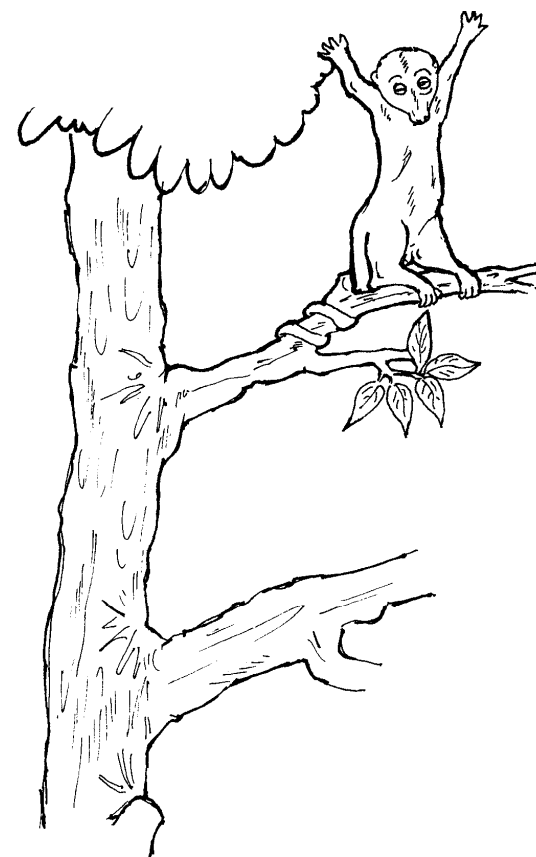

We hope you will enjoy reading this book and the message in it will be helpful to you.
